MARCH-

SPECIAL
PRICE

Larkin Fancy Patent Flour is the highest quality of patent spring wheat Flour, milled from the choicest No. 1 Northern hard wheat by one of the oldest and most reliable millers in this country. It is packed in strong, cloth sacks, each holding a quarter barrel, and each sack is enclosed in a closely-woven burlap bag as an extra protection against moisture and dust.

We have never tried to see how cheap we can sell Flour to you. On the contrary, in selecting the Flour to be sold as Larkin Fancy Patent we specified the best, regardless of cost.

Your Money Refunded if You Do Not Find It the Best

Larkin Flour is guaranteed to reach you in perfect condition and to give you entire satisfaction. Add a sack to your next order; there will be hardly any extra freight-cost as 100 pounds freight is the minimum amount charged by most railroads, and your order will probably be well within that limit.

It is our intention to maintain these Flour prices during the term of this Book,—we have never done otherwise. But to anticipate possible abnormal market conditions, we must reserve the right to decline orders for Flour; or to limit the quantity of Flour shipped with any particular order to what we consider a reasonable proportion to the other Groceries ordered.

And you may include Flour at this low price in your \$10 selection which entitles you to add a bag of Sugar at the special low price.

Per quarter-barrel sack, 49 lbs., **\$1.98**

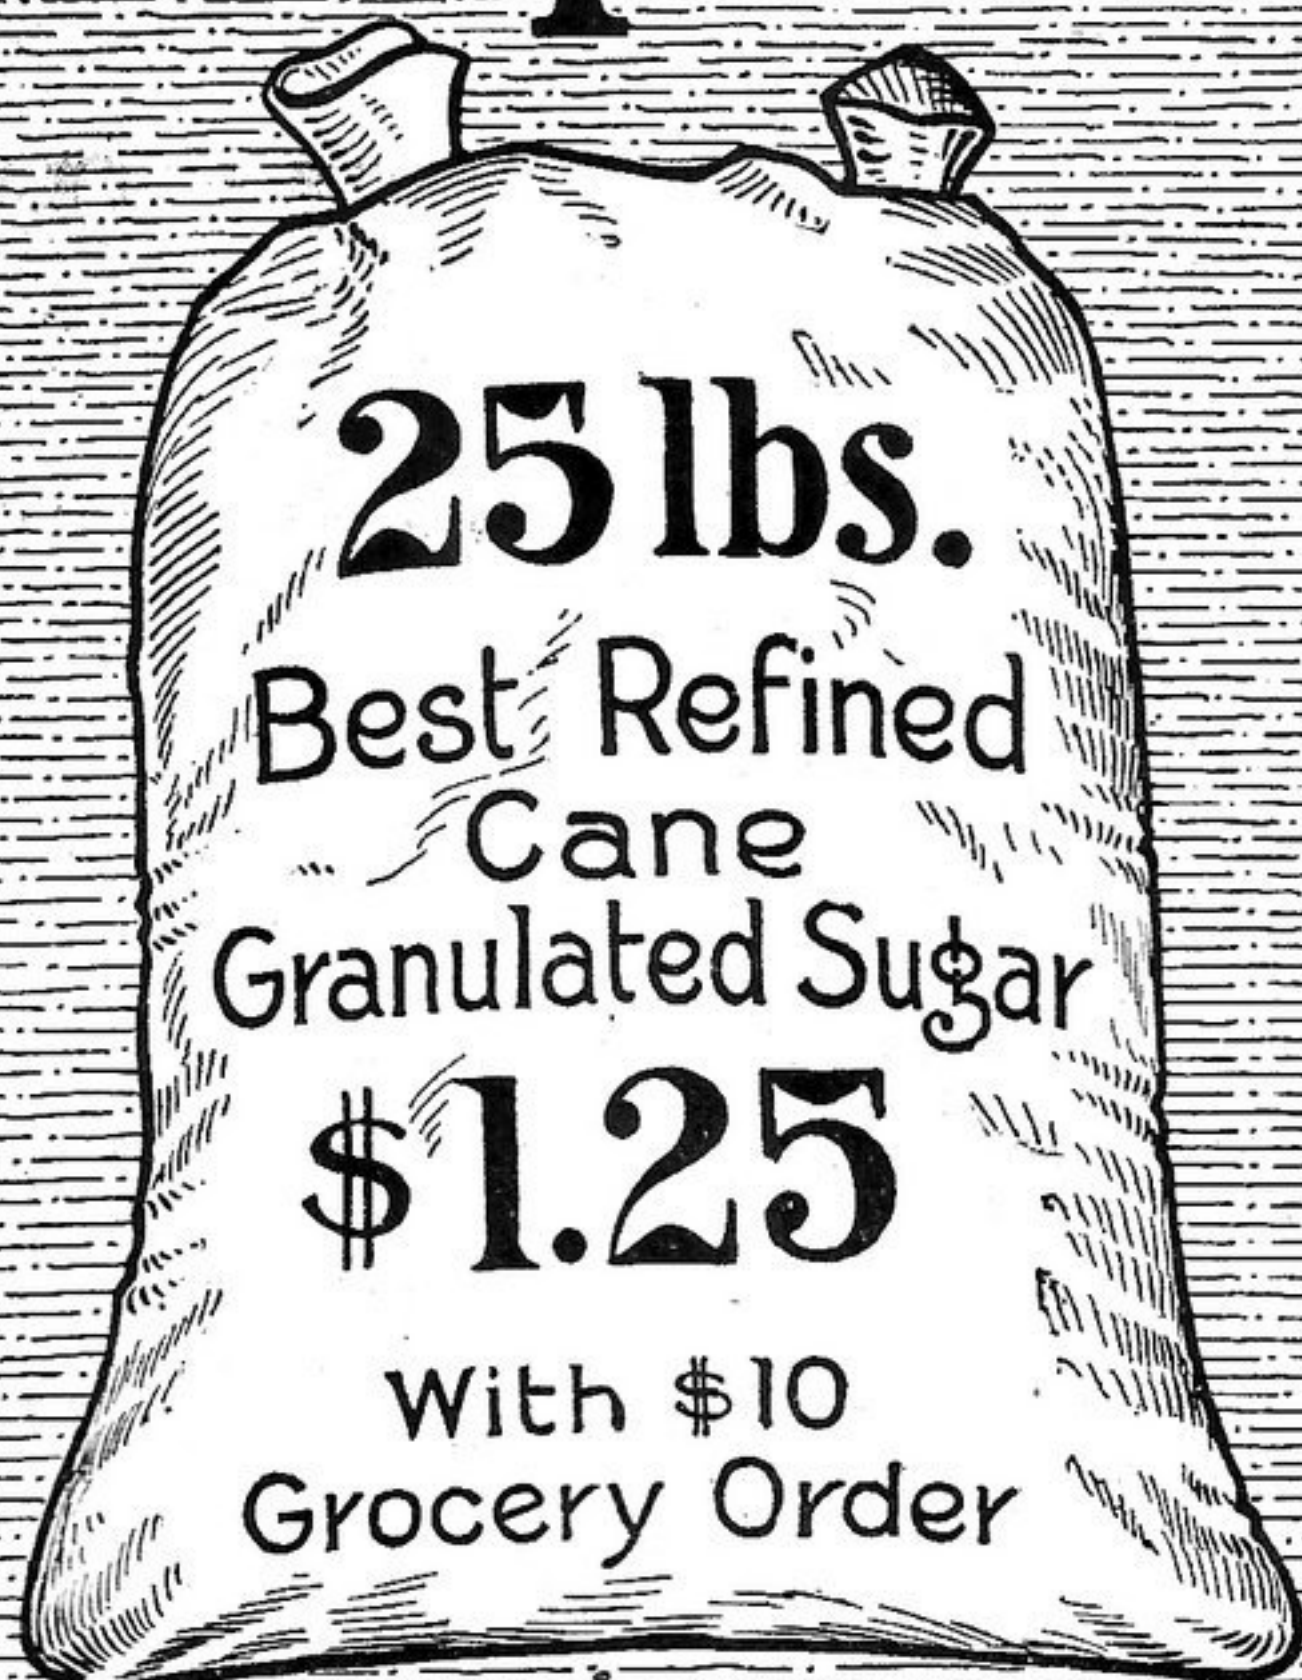

"I am writing to thank you for sending my Groceries so promptly. You have such good things to eat and so cheap too. I have to acknowledge that and also your sending me back part of the price. The goods are certainly the best and purest we have had for quite a few years. I had thought I was forgetting how to cook or bake, but not so. It was the fault of the Flour and other things we were buying. Oh, the Flour makes such good bread, cake and pie. The canned goods are fine. My husband did not want me to send away so far but he is more than pleased. In three months I have saved \$10 after paying freight and carting."

Cream of Tartar Baking Powder

No better brand than this is made. Marion Harland says, "From the claims its makers have extensively advertised for many years, the public has quite naturally come to believe that a certain popular brand of baking powder possesses extraordinary merits, and is not equaled by any other brand. That is a mistake. I have seen the U. S. Government exhibit of ingredients used in that popular brand and in other brands. Comparison of the analysis of Larkin Baking Powder with analysis of the other shows that it is impossible to make better Baking Powder than is here made."

LARKIN BLEND COFFEE

GROUND

UNGROUND

A 40c GRADE OF COFFEE FOR 25c

Do you want delicious, fragrant, palatable Coffee? Then try Larkin Blend Coffee. You will find it equal to any 40c Coffee you ever drank, delightful and satisfying—and it saves you fully one-third the retail cost.

As we are importers, roasters, blenders, and retailers, all in one, you will understand easily how such a saving is possible. This saving is an important advantage, but it is not the only advantage to you of using Larkin Blend Coffee. Bear the following points in mind:

Green, unroasted Coffee improves greatly with age. Roasted Coffee rapidly loses in aroma and flavor.

And so we buy far ahead of our wants, importing direct from the best plantations to our

warehouses where the green beans lie, adding more deliciousness with each day.

Your Coffee is always roasted within a few days before your order is packed. No more than enough for each day's needs is roasted at one time. Every pound contains the utmost in strength, flavor and aroma. To preserve these qualities we pack the Coffee in air-tight tin cans and ship it to you absolutely fresh. The tin can preserves all the aroma.

Always uniform in flavor, Larkin Blend Coffee is one of our greatest friend-makers. Much Coffee sold elsewhere is lacking in one or more of the qualities we fully preserve. Where else can you save one-third and obtain Coffee of superior quality, freshly roasted and always the same in flavor?

When ordering, specify whether you wish ground or unground. We strongly recommend buying Coffee unground and grinding it only as used.

"Your Coffee is certainly the best I ever used in my home; it has a pure delightful taste. My husband won't drink any other but Larkin. I have used Larkin Coffee for nearly four years and have no desire to change for any other. Larkin is the best."

Comet Brown Rice

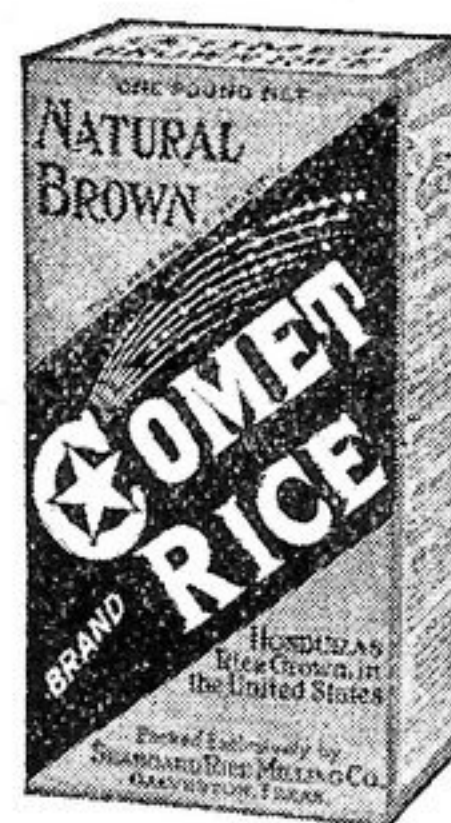

(Whole Rice)

Natural Brown Rice is one of the most nutritious and economical of foods—the staple article of diet of some nations.

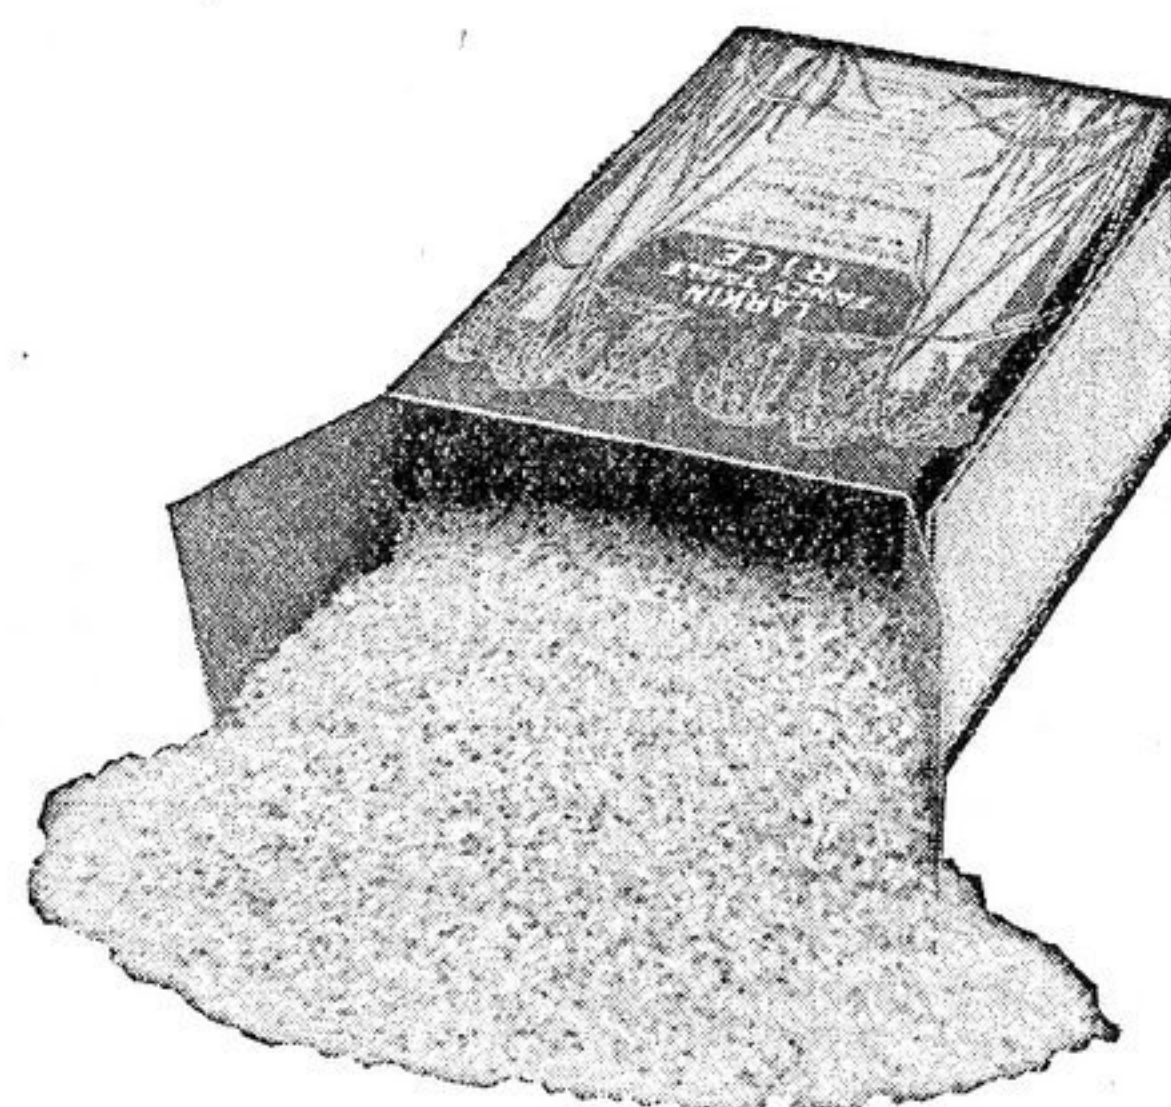

Comet Brown Rice, unpolished, is Rice as nature intended it to be eaten. It is a beautiful grain, midway between cream color and light-brown in hue, and has a delicate, characteristic flavor that is not found in the polished White Rice.

Comet Brown Rice is the richest in food value of any kind of Rice. In polishing Rice to produce the smooth, white grain in common use, many of the valuable natural organic mineral salts are taken from it. In Comet Brown Rice none of these has been lost. The Rice comes to you practically in its natural state.

Lent begins this year on March 8, Easter Sunday falling on April 23. It has long been a practice with many to eat, during this period, less meat than usual.

Whatever else may be said in favor of this custom, the substitution of fish for meat makes it a good one. Less meat and more fish makes for health and for wealth.

Lay in a good supply with your next order and try some of the delicious recipes we have worked out for you in the Larkin Kitchen.

Tuna Fish

Tuna has been called the turkey of the ocean. Its flaky white meat, in appearance and flavor very like the breast meat of turkey, may be used to advantage in nearly all recipes calling for meat of poultry. It is eaten and enjoyed by many who dislike other fish in any form. With it you can make a salad, or a sandwich almost impossible to distinguish from chicken. There are also many scalloped or creamed dishes that may be made from it.

How to Freshen Fish in Brine

Remove the fish from the brine and rinse in cold water. Place in a pan of cold water with the skin side up in order to draw out the salt. Soak for at least ten hours, preferably longer. One-half cup vinegar, added to the water will draw out the salt more readily. Change the water several times. Running water is splendid, if available. Wipe both sides of fish with a cloth wrung out of cold water. Wipe dry and the fish will be plump and ready to use.

MORE HELPFUL SUGGESTIONS FROM THE LARKIN KITCHEN

One of the perplexing little problems of the interested housewife is to avoid sameness in her meals and yet keep their cost down where it belongs. It is easy enough to have plenty of variety where cost is no object, but to most of us it is an object. There is a limit within which we like to keep.

One great help in this direction is the use of Dried Vegetables. Many delicious dishes may be easily prepared by their use, some of which now and then may be made to take the place of the meat course.

Furthermore, Dried Peas and Beans are flesh formers and muscle and tissue builders. Their per cent. of mineral matter is high. We should always bear this fact in mind and save the water in which dried vegetables are cooked for soups and sauces. The per cent. of fat in these foods is low, so we make up this deficiency by combination with milk, eggs and pork, and secure a highly nutritious dish.

Below are a few suggestions from the Larkin Kitchen, which will be found agreeable and appetizing as well as nourishing and inexpensive.

Split Pea Loaf with Potato Nests

Press one cup cooked Larkin Green Split Peas through a sieve and add three-fourths teaspoon salt, one-fourth teaspoon pepper, one tablespoon sugar, one-fourth cup chopped meat-nuts, one egg slightly beaten, one-fourth cup melted butter and three-fourths cup milk. Stir well and pour into a buttered bread-pan lined with Larkin Waxed Paper. Cover and bake forty minutes in a slow oven. Turn onto a hot platter and surround with nests of mashed potatoes filled with buttered Larkin Sifted Sweet Wrinkled Peas.

Split Pea Soufflé

Soak two cups Larkin Split Peas over night. Simmer until tender then drain saving the liquor for soup. Press peas through a sieve, then add one tablespoon butter, one-half teaspoon salt and a dash of red pepper. Fold into the stiffly-beaten whites of two eggs, turn into a buttered baking-dish and bake twenty minutes in a moderate oven.

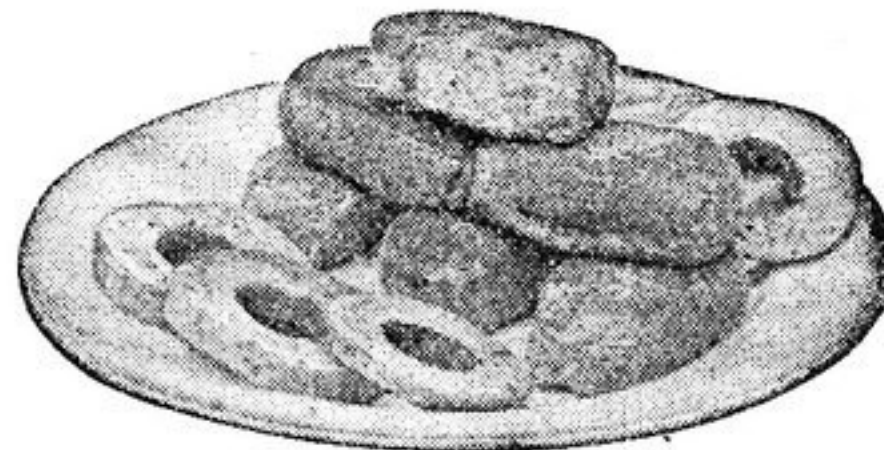

Boston Baked Kidney Beans

Soak one quart Kidney Beans over night. Drain and cover with fresh water. Cook slowly until skins burst, then drain. Scald one-half pound salt pork and slash rind. Put beans in a bean-pot or baking-dish and bury the pork in them with the rind exposed. Dissolve one tablespoon salt, one tablespoon molasses and two tablespoons sugar in a cup of boiling water. Pour over beans and add enough boiling water to cover. Bake slowly six or eight hours, uncovering beans the last hour of cooking.

Dehydro (Waterless) Fresh Vegetables

The water, 90% of the weight of the vegetable, is extracted by vacuum process, leaving it dry, but fresh and otherwise unchanged. The natural color and fresh flavor will be retained indefinitely by the hermetically sealed cans. These products are restored to original condition by following the simple directions on can—briefly, merely to put in cold water, which the vegetable absorbs and gradually assumes its original form. It can then be used in any way, just the same as the fresh vegetable.

Prunes

These plump, luscious Prunes are grown in the famous Santa Clara Valley. They are medium size, very fancy, considered the very finest Prunes grown.

A few words as to the best method of cooking Prunes will not be amiss. Wash through several waters, then cover with fresh water and leave soaking over night. In the morning, put on to cook in the water in which they were soaked. Allow them to cook, without boiling, for one and one-half hours, when they will be swollen and perfectly soft. If you wish to add sugar, do not put it with the Prunes, but pour off the liquor when they are cooked, add sugar to this and boil until a syrup, then pour over the Prunes. Cooking with sugar makes the skins of Prunes tough and indigestible.

Larkin Hams and Bacon

Our Hams and Bacons are from Eastern States selected hogs, considered by curers to be superior to Western porkers. The most careful attention is paid to curing, inspection, and smoking, while the weights are guaranteed.

Larkin Hams and Bacons are first put into a "pickle" of pure granulated sugar and pure salt, in which they remain until properly cured and ready for the smoke-house. The smoking takes place over burning hickory logs, in whose incense the meats remain long enough to acquire a delicate, appetizing flavor.

Although there are two grades, each is of the best quality. The only difference is, the Fancy Hams and Bacons are more closely trimmed and so have less fat.

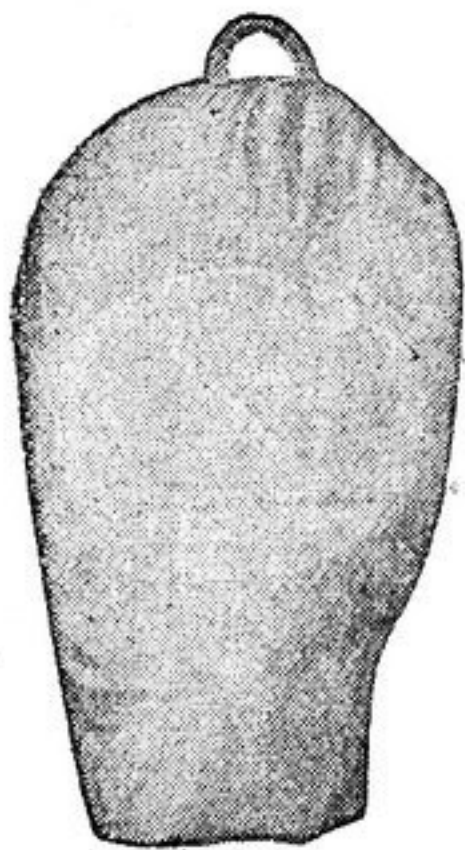

All our Hams and Bacons are wrapped in paper and sewed up in cloth bags, so they will reach you fresh and clean.

Try them with your next order. You will find them of unsurpassed flavor and cheaper even than those of ordinary quality.

Larkin Ready-Mixed House-Paints are the *best that we, after years of experience, know how to make.* They are made in our own modern factories by experts, and contain only those materials which scientific research has proved to be absolutely the best for the purpose.

A statement of the ingredients is printed on the label.

They are made for durability in any climate, and for economy. Two coats suffice for all ordinary work and, under average conditions, one gallon will cover from 300 to 325 square feet of surface with two coats. Easily applied by following directions on can. Excellent for use on wire screens.

Per can, 1 qt., 32½¢; 1 gal., **\$1.25**

Don't Pay Any More!

Remember we guarantee our Paints equal to any costing twice as much at retail.

Special Colors Made to Order

On orders for 8 gallons or more of one color we will match and promptly ship any color. Send us sample of color and retain sample for comparison.

How to Figure Quantity of Paint Needed

The quantity of Larkin Paint needed to cover any surface may be determined in the following manner:

Add together the length of both sides and the width of front and rear; multiply this by the average height to the eaves; add one-tenth for gables, etc. This gives the number of square feet of surface. Divide this by 300 (the number of square feet one gallon of Larkin Paint will cover with two coats). This gives you the number of gallons of body-paint needed.

We Guarantee Your Satisfaction

Order any quantity of goods from this book and thoroughly test their quality. If after this test you do not pronounce our goods unsurpassed and see that you have saved money, tell us. We will remove what goods are left and will refund the entire amount you sent us, also the freight- and delivery-charges, making no charge whatever for the goods that have been used.

How to Make Out Your Order

There are no complications or difficulties about ordering Larkin Groceries,—it is as simple as writing a letter. Take a Grocery order blank if you have one, or a plain piece of paper and as you look through the book write down the groceries and home supplies that you want. Add up the order and mail it to us together with Post-office or Express Money Order, Bank Draft, Cash by registered letter, or your own personal check.

Fast, through-freight trains, running on schedule, leave our factories and warehouses every day, for all parts of the country. We guarantee safe arrival of goods in perfect condition.

Large Orders Pay You Best

You will be surprised at the low freight-charges. A \$10 order will travel 500 miles for only 45 to 50 cents, while the freight on a larger order costs little if any more.

A \$5 order for Groceries and Home Supplies is the least we can accept alone, as less cannot be packed and shipped by freight so economically.

Most families require each week \$5 worth of the articles shown in this book. But if for any reason you do not care to order \$5 worth at a time, get one or two neighbors to combine with you in making up this amount and have the goods shipped to one address.

Although the freight-charges are a small item compared to your saving even on a \$5 order, they are seldom more on a \$10 order, and your saving on the larger order is correspondingly greater. Besides, an order for \$10 or more entitles you to add Sugar at a special low price.

Where to Send Your Order

We carry complete stocks of Groceries and Home Supplies at Chicago and Peoria as well as in Buffalo. This enables us to give as prompt service to our customers in the West as to those served by Buffalo.

Send your order to Chicago if you live in Arizona, California, Idaho, Illinois (northern half), Minnesota, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington or Wisconsin.

Send your order to Peoria if you live in Arkansas, Colorado, Illinois (southern half), Iowa, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Oklahoma, Texas or Wyoming.

All other states are served by Buffalo.

You May Add Groceries to an Order for Products

If you are sending an order from our Product and Premium Catalog, you may add an order for groceries in any amount, large or small. The grocery order need not then be for \$5,—you may add even a single can of Coffee, if you choose. Remember, the prices quoted are net wholesale prices and do not entitle you to Premium Merchandise or Sales Service Rewards. The saving is given you in the reduced price.

You may add as large an order as you wish, or as small, simply adding to your remittance the price of the groceries selected. Groceries ordered in this way usually add nothing to the freight-charges.

On all orders from this book, the prices are net. Our terms are cash in full. No Certificates, Due-Bills or Coupons will be accepted. No Premiums, Certificates, Coupons, or Rewards of any kind are given with purchases at these prices.

RECIPES FROM THE LARKIN KITCHEN

Salmon Croquettes

Make a sauce of one-fourth cup corn starch blended with three tablespoons melted butter, one-fourth teaspoon salt, a few grains cayenne and one cup milk; and cook until thick. Cool and add one and three-fourths cups Larkin Pink Alaska Salmon flaked fine, and one teaspoon lemon-juice. Shape into croquettes, roll in bread-crumbs, dip in one egg beaten with two tablespoons water and again roll in crumbs. Fry in deep fat. Drain and serve with tomato sauce.

Salmon Ring With Buttered Peas

Combine one can flaked Larkin Pink Alaska Salmon with one-half cup bread-crumbs, one-half teaspoon salt, a dash of cayenne and the beaten yolks of four eggs. Mix well, and fold in the stiffly beaten whites of four eggs. Turn into a buttered ring mold and place in a pan of hot water. Bake until firm in a moderate oven. Invert mold on a platter and fill center with one can Larkin Sifted Sweet Wrinkled Peas which have been drained, and heated with three tablespoons butter and seasoned with salt and pepper. Cream sauce may be served if desired.

Salmon With Caper Sauce

Immerse a can of Larkin Red Alaska Salmon in boiling water for fifteen minutes. Open can and carefully slip Salmon onto a platter garnished with lemon slices. Remove skin. Serve with Caper Sauce.

Caper Sauce

Blend three tablespoons flour with one-fourth cup melted butter. Season with one-half teaspoon salt and a few grains cayenne pepper. Add one and one-half cups boiling water gradually and boil for five minutes. Add one tablespoon butter in small pieces and stir in one-half cup Larkin Capers drained from their liquor.

Salmon With Rice Border

Line a shallow pudding-dish or an earthenware pie-plate with boiled rice. Flake one can Larkin Pink Alaska Salmon and flavor with two tablespoons lemon-juice, salt and pepper. Pile in center of dish, dot with butter and heat in a moderate oven. Garnish with hard-cooked eggs and serve with Egg Sauce.
